Dear Fellow Futurist:

On behalf of Edward Cornish (President, World Future Society) and Louis J.D'Amore (President, Canadian Futures Society) we are pleased to confirm your participation in the program of the First Global Conference on the Future. The title, date, and time of your presentation are shown on the attachment.

The conference already has 2,000 advance registrants, and final attendance is expected to exceed 4,000...making it the largest futures conference ever held. Our preliminary program includes speaker presentations from some 30 countries and all are participating without fee or expenses. This rich global program promises to be an exciting event of major significance and highly rewarding for presenters and non-presenters alike. A copy of the preliminary program is enclosed.

With over 350 sessions, the cast of presenters is an impressive host of thinkers and doers representing almost every imaginable aspect of the futurist movement. In order to provide a suitable forum for you, we may have included your presentation as part of a panel session with others. We trust this format will be acceptable to you.

We enclose a conference registration form and, unless you have already done so, you are asked to register as soon as possible for the conference. Presenters--as well as non-presenters--must formally register for the meeting. We are also including an audiovisual request form.

The conference is being held in two hotels, the Royal York and the Harbour Castle Hilton...the sessions are split equally between the two locations, which are in close proximity. Rooms at the Harbour Castle Hilton are presently filled, but the Royal York currently offers a wide range of excellent reasonably economical accommodations. We suggest that you now make hotel and travel arrangements.

We appreciate the time and concern that have gone into your contribution, and we are delighted that you will be a part of this conference.

Yours sincerely,

Frank Feather
Conference Chairman and
Director-General

AUDIOVISUAL REQUEST FORM

We are now making final plans for providing audiovisual support to the conference program. The preliminary program provides a solid basis on which you can assess your audiovisual requirements. It is requested that everyone provide audiovisual requirements at this time to insure that our records are up-to-date and reflect your latest plans for participation.

The standard format for conference rooms will be theater-style with rectangular tables and microphone(s) for the table and lectern. Flipcharts, 35mm carousel slide projectors, overhead (viewgraph) projectors, and 16mm sound projectors are supplied upon request. Other equipment and room configurations will be considered on a case-by-case basis.
